

International Student Support

International Stude...MassArt_trifold.pdf

MassArt has a proud tradition of welcoming and supporting our international students. We in the IEC recognize that faculty and staff may encounter situations of cultural difference that they have not faced before with students in their classrooms or offices. The document above is aimed to help you provide the best support possible to this population, keeping in mind their unique status on campus. As always, please feel free to contact us with questions.
