

Facilities

The MassArt academic campus consists of 8 buildings covering over 850,000 square feet. The Facilities Department is responsible for providing the daily operational support needed to provide a safe, clean, and suitable working and learning environment for staff, faculty, and students. The Facilities Department's primary mission is to keep all ancillary systems and components safe and functional. Our secondary goal is to continually upgrade the facilities to meet changing academic needs.

The Facilities office is located in the Kennedy building, suite K104. This is where all facilities calls are received and directed to the appropriate personnel. All foremen and tradesmen carry radios so they can be reached quickly, especially in emergencies. Work Request forms are filled out online using the SchoolDude system.

Howie LaRosee, Assistant Vice President of Facilities Planning

Kennedy 104

617-879-7938

The Assistant Vice President is responsible for the overall operation of the Facilities and Planning departments. All tradesmen report to the executive director and meet daily to discuss work requests and projects as assigned. The Energy Management System is managed by the executive director and the HVAC department. All Capital or Renewal projects are managed through the Planning side of the department, including in-house projects, DCAMM projects and MSCBA projects.

The Sustainability/Environmental Health & Safety Officer is responsible for ensuring compliance in environmental health and safety laws, as well as other applicable health and safety policies at the college. The Health and Safety Officer oversees elevator maintenance, generator maintenance, and the recycling and composting programs. This office also provides expertise in training, respirator fit testing, air quality testing and office ergonomics.

Francine Femino, Director of Facilities

Tower 107

617-879-7955

The Director of Facilities is responsible for custodial, maintenance, grounds keeping, snow removal and event set-up. There are 3 shifts of staff who maintain the facilities as scheduled.
