

Remote Teaching - Best Practices and Resources

Suggestions to support remote teaching:

- Be clear about your attendance expectations at beginning of class
- Use the chat more
- Use classtime to advise individuals one on one
- Zoom polls - about what's going on, how we should spend our time, what is a struggle, etc: all anonymous
- Invite the counseling and wellness center staff folks to my classes so that students could communicate w the more easily since most of them have no idea how to book an appointment there for their mental health
- Instructional and communication technologies:
 - Slack
 - Discord
 - Basecamp
 - Google classroom
